SUMMARY

Full Stack Developer specializing in building modern web applications using React.js, Next.js, Node.js, and PostgreSQL. Skilled in developing responsive frontends, RESTful APIs, and scalable backend systems. Built multiple full-stack applications including AI SaaS tools, stock tracking platforms, and a healthcare medicine database system. Passionate about problem solving, clean code, and delivering high-quality web solutions.

EDUCATION

Barani Institute Of Information Technology <i>Bachelor of Science in Computer Science (BSCS)</i>	Rawalpindi, Pakistan Feb 2022 – Jan 2026
Astron College <i>Intermediate in Computer Science</i>	Rawalpindi, Pakistan Sep 2019 – Jan 2022

PROJECTS

Medicine Database of Pakistan – Final Year Project	React.js, ASP.NET Web API, SQL
- Designed and developed a full-stack healthcare platform with role-based access for Patients, Doctors, and Drug Inspectors. - Built secure authentication and RESTful APIs to manage appointments, prescriptions, and medicine verification workflows. Github: https://github.com/theubaidistan/Medicine-Database_2025	
Project Management Web App	PERN Stack
- Developed a responsive web application for managing projects and organizing tasks. - Implemented authentication, backend APIs, and database connectivity. Live: https://project-management-2025-client.vercel.app/	

EXPERIENCE

Smart Codex <i>Frontend Developer Intern (HTML, CSS, JavaScript)</i>	On-Site June 2023 – August 2023
Project: OmniFood — Developed a responsive food delivery landing page using HTML, CSS, and JavaScript, implementing modern UI design and responsive layouts.	
Vorksol <i>Node.js Backend Intern</i>	On-Site June 2026 – August 2026
Project: Elephant Trax — Contributed to a home inventory management application featuring QR-based storage labels, product tracking, and inventory organization.	
Vorksol <i>Backend Developer</i>	On-Site Sep 2026 – Present
Project: Elephant Trax — Contributed to a home inventory management application featuring QR-based storage labels, product tracking, and inventory organization. Technologies: Express.js, REST APIs, PostgreSQL, Postman, OpenAI API, AWS S3, Amazon Cognito, AWS Amplify, FCM, SendGrid - Worked with backend APIs and application logic to support inventory management and QR-based product identification.	

SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript
Frontend: React.js, Next.js, Tailwind CSS, SASS
Backend: Node.js, Express.js, REST APIs, ASP.NET(C#)
Databases: PostgreSQL, MongoDB, Prisma, Supabase, Firebase, MS SQL Server
Tools & Platforms: Git, GitHub, Docker, Vercel, Netlify, Postman, VS Code
Libraries & Integrations: Axios, NextAuth, Clerk, Stripe, SendGrid, Mailtrap
