SUMMARY

Full Stack Web Developer specializing in building modern web applications using React.js, Next.js, Node.js, and PostgreSQL. Skilled in developing responsive frontends, RESTful APIs, and scalable backend systems. Built multiple full-stack applications including AI SaaS tools, stock tracking platforms, and a healthcare medicine database system. Passionate about problem solving, clean code, and delivering high-quality web solutions.

EDUCATION

Barani Institute Of Information Technology

Bachelor of Science in Computer Science (BSCS)

Rawalpindi, Pakistan

Feb 2022 – Jan 2026

Astron College

Intermediate in Computer Science

Rawalpindi, Pakistan

Sep 2019 – Jan 2022

PROJECTS

Medicine Database of Pakistan – Final Year Project

React.js / ASP.NET Web API

- Developed a full-stack healthcare web application to manage and verify medicine information across Pakistan.
- Implemented role-based access for Patients, Doctors, and Drug Inspectors with secure login authentication.
- Built RESTful APIs using ASP.NET Web API and integrated with a relational database using Entity Framework.
- Features include medicine verification, appointment management, prescription handling, and contraindication checks.
- Designed and implemented database schema and ERD for scalable data management.

Quick AI – AI SaaS Web Application

PERN Stack

- Built a full-stack AI web application that generates text and images using external APIs.
- Implemented authentication, API integration, and responsive UI using React.js and Tailwind CSS.
- Live: quickai-gs.vercel.app

Project Management Web App

React.js / Node.js

- Developed a responsive web application for managing projects and organizing tasks.
- Implemented authentication, backend APIs, and database connectivity.
- Live: project-management-2025-client.vercel.app

Signalist Stock Tracker

Next.js / MongoDB

- Created a stock tracking web application with automated alerts and background job processing.
- Integrated stock APIs, authentication, and email notification system.
- Live: signalist-stock-tracker-app-2025.vercel.app

GSAP MacBook Landing Page

React.js / Three.js

- Developed an interactive 3D landing page with smooth animations using GSAP and Three.js.
- Implemented responsive UI and optimized rendering performance.
- Live: gsap-macbook-landing-2025.vercel.app

SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, Tailwind CSS, SASS

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL, MongoDB, Prisma, Supabase, Firebase

Tools & Platforms: Git, GitHub, Vercel, Netlify, Postman, VS Code

Libraries & Integrations: Axios, NextAuth, Clerk, Stripe, SendGrid, Mailtrap
